Lakkars Nithin

Power BI Developer

lakkarsnithin03@gmail.com 7993774217 Hyderabad, India 02-01-2000

PROFILE

Power BI Developer with around 2 years of experience in designing, developing, and deploying interactive dashboards and reports that drive business insights. Proficient in data modeling, DAX, Power Query, and visualization best practices. I am skilled in connecting and integrating data from various sources to create robust, scalable BI solutions. Committed to continuous learning and contributing to data-driven decision-making in fast-paced environments.

PROFESSIONAL EXPERIENCE

Procorp Systems, Power BI Developer 10/2023 – present | Hyderabad, India

Power BI Developer – Roles & Responsibilities

- Develop, design, and maintain **interactive dashboards and reports** using Power BI Desktop and Power BI Service.
- Connect to various data sources (SQL Server, Excel, cloud platforms) and perform **data extraction, transformation, and loading (ETL)** using Power Query.
- Write and optimize **DAX expressions and measures** to create dynamic and insightful analytics.
- Implement **data modeling best practices, relationships, hierarchies, and calculated columns** to ensure data integrity.
- Collaborate with business users to **gather requirements** and translate them into technical BI solutions.
- Ensure report **performance tuning and optimization** for fast, reliable data refresh and user experience.
- Set up and manage **Row-Level Security (RLS)** for controlled access to data.
- Publish and schedule reports to **Power BI Service** and manage **workspaces, gateways, and datasets.**
- Conduct **troubleshooting, debugging, and issue resolution** for BI solutions and reports.
- Stay updated with **Power BI new features** and implement best practices to enhance reporting solutions.
- Integrate **Power BI with other tools** (e.g., Excel, Teams, SharePoint) to extend BI capabilities.
- Collaborated with cross-functional teams to gather business requirements and translate them into interactive dashboards and insightful reports.
- Implemented Row-Level Security (RLS) and optimized data models to enhance report performance and ensure secure data access.

SKILLS

- Data Modelling
- Data Transformation
- DAX (Data Analysis Expressions)
- Visualizations
- Power BI Service
- Power BI Gateway

CERTIFICATES

- AWS Cloud Practioner
